DRIVE 3G-X

weBoost brings seamless, uninterrupted cellular connectivity for everyone in your vehicle. Cell phones are an essential part of our lives – especially when we're on the go.

Whether around town or on a long road trip, the weBoost Drive 3G-X™ cellular signal booster is a simple, effective solution to maintain continuous communication for all cellular-enabled devices – smartphones, tablets, etc - in your car, truck, van or RV.

Installation is easy - no tools needed. A step-by-step video guides you through the process. No special tuning or alignment is required.

weBoost amplifies signals to improve coverage—including 3G data— no matter your cellular carrier in the United States and Canada. The Drive 3G-X comfortably handles multiple simultaneous connections across multiple carriers, providing effortless voice and data communications for all users.
