FITTING THE V1

Spin the ear gels so the tip of the rubber is directed into your ear canal.
Push the ear hook through the ear hook hole and adjust to a length that comfortably fits on your ear.
Ensure that the V1 is pointing towards your mouth.

QUICK START GUIDE

Keep this in your wallet for quick reference

There are three commands you need to remember to use your V1

“PAIR ME” “TEACH ME” “WHAT CAN I SAY?”

Get Started

1. Charge the V1 until the Red LED turns OFF.
2. Press and Hold the BlueAnt Button (BAB) for 3 seconds to turn ON
3. Follow the voice assistance to Pair the V1 to your phone.
4. Press the BlueAnt Button (BAB). You will hear "Say a command"
5. Say one of the available calling commands.

Set up your Speed Dial List

The V1 uses voice commands to activate the speed dial list in your phone. If need be, see your phones user guide to learn how to input them.

Program them as follows:

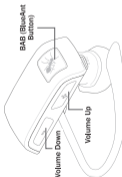

Speed Dial Position	Contact to input
1	Voicemail
2	Home
3	Office
4	Favorite
5	Preset to Dial GOOG-411
6	Your Choice
7	Your Choice
8	Your Choice
9	Your Choice

Note: Please see the User Guide for a method of programming the numbers directly into the V1. This might be required for some phones if the above does not work correctly. Google, GOOG-411, and the Google Logo are trademarks of Google Inc.
