Installation Overview

Installing the Overland Antenna Mount

This mount makes it easier to install the outside antenna to different types of overland vehicles. The overland folding mounting bracket is very versatile with different mounting options shown below.

Works with Different Overland Vehicle Types

(INSTALLING cont.)

T-Track Mounting Option

For vehicles with t-track roof rack systems, the provided mounting bracket can be mounted to the roof rack. Use the **t-track mounting hardware** to secure the bracket to roof rack, then screw in assembled outside antenna.

(INSTALLING cont.)

Pole Mounting Option

Brackets and hardware are also provided for securing the folding mounting bracket to 1.0-1.5 inch diameter pole-like roof rails or ladders, as shown.

(INSTALLING cont.)

Fixed Mounting Option

The folding mounting bracket can also be secured to a flat surface using the provided hardware as shown here.
