

Installation Guide

Corner Wall Mount for Panel Antenna

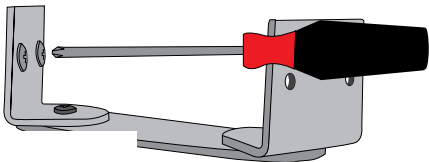

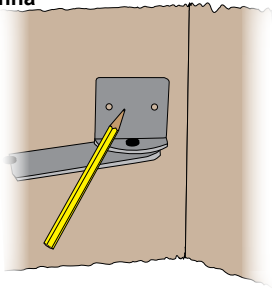

Part # 901135

Wilson[®]
Electronics, Inc.

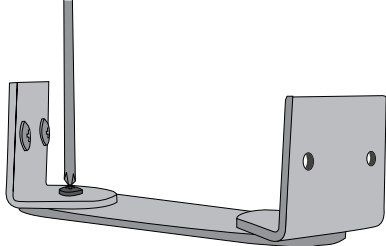

Installing the Corner Bracket Mount for Panel Antenna

1. Use the mount itself as a guide to draw on the wall where you want your screws.

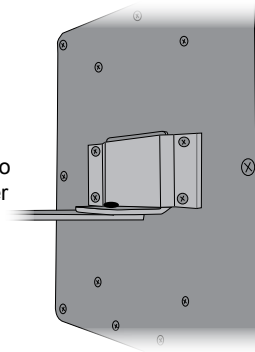

2. Attach the mount to the wall, using a screw driver.

Note: Use the mounting hardware (screws, washers, anchors) that came with your panel antenna to install this product.

3. Use a screw driver to loosen the two sides, move the two sides to the desired angles, then re-tighten the screws.

4. Attach the Panel Antenna to the Corner Bracket Mount.

3301 East Deseret Drive,
St. George, UT 84790
